Rapise™ v1.5 Release Notes

Rapise™ version 1.5 is the latest release of the Rapise™ automated functional testing solution from Inflectra®. These Release Notes cover what issues this version addresses, what new features have been added, and finally download instructions. If you have any feedback or suggestions regarding this release or any of our products, please send us an email at support@inflectra.com with your ideas or comments.

New Features

- Support added for Silverlight and Java SWT applications
- Enhanced support for WPF applications using the new UIAutomation library
- Support for testing .NET 4.0 applications
- Execution monitor dialog box that displays progress during playback and allows pause/cancel of running tests
- Spy chooser that allows inspection of MSAA, UIAutomation, Managed (.NET) and Java applications

Enhancements

- Regular Expression option added to Find and FindReplace in the Rapise IDE
- Keyboard shortcut added to allow users to stop running scripts more easily
- SpreadSheet object API enhanced with additional functions
- Screen capturing now has the option to display cursor position
- Support added for Embedded Java in IE, Chrome, Firefox web applications

Resolved Issues

- SuppressReport option no longer causes subtest to fail
- Popup windows now supported in all browsers
- Save to Spira option no longer uploads excluded files

Download Instructions

To obtain this version of Rapise™, you need to log in to the customer area of the Inflectra® Website at: http://www.inflectra.com/CustomerArea. From there you can find the list of downloads under "My Downloads". Simply right-click on the installation link, download the Microsoft Installer (.msi) package to your computer, and then double-click on the package to begin the installation.

The installer will detect the existing version on your computer (if any) and upgrade the program files and migrate your data into the new version. *After installation you may be required to activate your product using the provided activation code.*

The full installation and user's guide can be found at http://www.inflectra.com/Rapise/Documentation.aspx.
