Enhancement & Resolved Issues

The following issues and enhancements have been addressed in this release:

- Need to prevent a test being executed if it has test cases in an invalid status for execution- [IN:4387]
- Duplicate Source Code Revision Session IDs in v5.3.04+- [IN:4458]
- Preview tab on Document Details breaks for XML documents!- [IN:4182]
- Instant Messenger Post as Comments function doesn't work- [IN:4288]
- Test set total estimated duration does not refresh if individual test case est dur is changed- [IN:4316]
- Extend the length of data sync password column in DB. It gets truncated too easily- [IN:4331]
- Foreign Key Exception error when cloning a test step from the test step details screen- [IN:4335]
- Error displayed when you try and import test steps from root folder- [IN:4343]
- Release execution status not updated when test runs are deleted or edited.- [IN:4349]
- Document detail page: with Modify Owned permission, save button is never enabled- [IN:4351]
- Exploratory Test Execution throws fault exception error in SpiraTest / team if user does not have view access to tasks- [IN:4356]
- Test Set Status Widget includes deleted Test Sets- [IN:4363]
- Exception removing a parameter from a test case if it is used in any test configuration- [IN:4384]
- Moving iteration should update test coverage but it does not.- [IN:4463]
- Rich text fields created using API can contain script tags which are not filtered out on fields without CKEditor- [IN:4468]
- No cross-association displayed in TESTCASE dedicated sub-tab- [IN:4475]
- On first load of attachments tab, the wrong documents are loaded briefly- [IN:4478]
- Exploratory testing: When run from "My Assigned Test Cases" test case doesn't go into exploratory mode- [IN:4506]

- Split requirement dialog has a place to specify owner but it does not get used- [IN:4510]
- Subscribe to a Document- [IN:2488]
- Change Test case copy to place copy below, rather than above, the copied test case- [IN:2570]
- Excel 2003 reports show blank effort as zeros and incorrectly show effort as percentages- [IN:2797]
- Version Control - Date sorting appears to put dates "in the future" at the bottom of the list (when sorting descending)- [IN:3003]
- Source Code Revisions page: problems with filtering and sorting- [IN:3194]
- Check to see if Attachment Description still has XSS vulnerability in Spira 5.0- [IN:3357]
- Error appears on release details page and the list of builds is not shown, under certain circumstances.- [IN:3692]
- Planning board issues (intermittent; related to changing display options)- [IN:3869]
- Planning Board filtering by deleted release breaks page- [IN:4032]
- Planning Board: "By Person" views have some issues with the effort numbers- [IN:4061]
- With Modify Owned permission for incidents, remove attachment is disabled.- [IN:4080]
- Document detail page: followers list is missing- [IN:4272]
- With incident modify owned, user can add attachment to incident they don't own- [IN:4297]
- Test execution, table view: New incident pop-up needs styling update- [IN:4306]
- Do not prefix the name with "Copy of" when copy/paste to a different folder- [IN:4309]
- When running test set, test case/run actual duration is incorrect under certain circumstances- [IN:4327]
- Project Home dashboard: two widgets don't refresh when change from a specific release to all releases- [IN:4333]
- Email notifications do not use a set reply-to address- [IN:4459]
- Exploratory testing: add ability to paste test step actual result and description into task description - [IN:4465]
- Exploratory testing, creating tasks: task description not always saved- [IN:4490]
- For default developer role, Testing -> Configurations menu item leads to error- [IN:4495]
- Right after saving a new incident, remove attachment doesn't work.- [IN:4098]
- Test Run Details - test step Full Screen - add scroll bars- [IN:4319]
- Disable all status result buttons (pass, fail) once clicked, until success is returned- [IN:4454]
