

SpiraTest® v2.3.1 Release Notes

SpiraTest® version 2.3.1 is the next release of the SpiraTest® integrated quality assurance and test management system from Inflectra®. These Release Notes cover what issues this version addresses, what new features have been added, and finally download instructions. If you have any feedback or suggestions regarding this release or any of our products, please send us an email at support@inflectra.com with your ideas or comments.

New Features

- Ability to synchronize incidents with the Mantis bug-tracking system
- Ability to copy test steps and edit linked test step parameters
- Project-wide Test Run list page added to the system and the global navigation
- Support for MS-Word and MS-Excel 2007 specific reports

Enhancements and Resolved Issues

- Pagination issue when filtering test case list by release fixed
- Incident graphs not including data before the start of the date-range fixed
- Issue changing font and text-size in rich-text editor in MSIE fixed
- Usability of hierarchical dropdown controls improved; auto-suggest added
- Attachment tab of artifact screens changed to use popup dialog box and sortable grid
- MS-Office reports now able to display formatted text entered in rich-text editor
- Issue on list screens where pagination dropdown disabled after clicking Edit, now fixed
- Dashboard edit settings functionality fixed to work on non-English versions of .NET
- Issue when filtering by (None) or multiple values causes subsequent insert to fail now fixed
- Performance improved on test case, requirements, test set and release details pages
- Associations comments can now be edited after original creation
- Test step editing screen updated to use AJAX for enhanced usability and performance
- Test step list page supports display and editing of test step custom properties
- Test step delete button differentiated from test case delete button to prevent accidental test case deletes
- Drag and drop moving of items added to Test Set and Test Case details pages

Download Instructions

To obtain this version of SpiraTest®, you need to log in to the customer area of the Inflectra® Website at: <http://www.inflectra.com/CustomerArea>. From there you can find the list of downloads under "My Downloads". Simply right-click on the installation link, download the Microsoft Installer (.msi) package to your computer, and then double-click on the package to begin the installation.

The installer will detect the existing version on your computer (if any) and upgrade the program files and migrate your data into the new version. *As always, we recommend that you backup your database and attachments prior to installation.*

The full installation and administration guide can be found at <http://www.inflectra.com/SpiraTest/Documentation.aspx>.
