Enhancement & Resolved Issues

The following issues and enhancements have been addressed in this release:

- Have insert test step link dialog remember last test case- [IN:1451]
- Ability to sort reports by custom properties- [IN:1624]
- Documentation: for incident date range graphs, explain that they rely on the "closed on date" not the status- [IN:2755]
- Update the documentation: for test set list, explain the "Display data for" dropdown- [IN:2933]
- Embedded images not appearing in Word 2003 format reports- [IN:3325]
- Project Home Test Set Status widget: overdue test sets should consider status- [IN:3379]
- Documentation: 2 places give incorrect information about what happens when you click View Details- [IN:3396]
- Misleading Error Message when trying to execute a Test Case without step- [IN:3612]
- Documentation: Add a description of the bracketed numbers at the top of the test execution page- [IN:3622]
- Test execution: certain sequences of actions related to actual result and "pass all" result in actual results being lost- [IN:3627]
- Change event not fired if click only one checkbox on a form manager dropdown- [IN:3630]
- Release Detailed report: take out "Active" and add "Status" and "Type" fields, plus a few other minor issues- [IN:3645]
- Update documentation to explain the new "Refresh the Database Indexes" button.- [IN:3654]
- Documentation: explain new Release Types and statuses- [IN:3676]
- Rich text custom fields shown on list pages are not shown formatted, but as HTML- [IN:3679]
- Add New Document popup does not hide fields correctly, forcing scrolling- [IN:3689]
- Automatically set artifact type on the association panel if a shared project only shares one artifact with current project- [IN:3765]

- Allow sorting by custom properties in all reports- [IN:3776]
- Test execution attachment panel should clear the grid on changing test case immediately- [IN:3780]
- Test Case list page produces error when filtering by test steps and adding new test case- [IN:3783]
- Tooltips not working for releases in the Quick Filter panel- [IN:3788]
- Column resizing causes big problems on mobile devices, probably needs to be disabled.- [IN:3794]
- With Limited View, problems displaying test set detail page (and also test case detail page)- [IN:3796]
- Scrollbar in IE covers rightmost content of page- [IN:3806]
- Notification Events page does not go to incident workflow- [IN:3817]
- In test execution screen, disable incident creation if no releases exist- [IN:3818]
- Double-Click for Quick-Edit on list pages does not work in Chrome- [IN:3822]
- Cannot move items to the Root folder on Task List- [IN:3830]
- Deleting associations button should be labeled "remove" not "delete" to avoid confusion- [IN:3835]
- Viewing History Details of Purged item causes error to be logged.- [IN:3899]
- German umlauts not showing correctly in Word 2003 reports- [IN:3915]
- Planning board usability - dragging may move previously selected items- [IN:3918]
- REST API: get/post Test Set Folder Test Sets search does not filter properly by test set folder id- [IN:3984]
- Can expand and collapse hierarchical lists in the newly redesigned association panel- [IN:3986]
- Show tooltips in search results on the new associations panel- [IN:4004]
- In Administration, the "rows per page" setting is not saved - keeps reverting back to 15- [IN:4011]
- Separate out the release filters in the test set report (display data for vs. column filter)- [IN:4029]
- Multi-select lists: dropdown closes when click checkbox, and change event is not triggered- [IN:4034]
- Test execution with single step test case does not refresh incident tab after passing/failing- [IN:4042]
- Labels inside forms were not correctly showing as disabled when they are disabled- [IN:4043]
- Make screenshots have more unique filenames and be stored in separate folder- [IN:4048]
- Cutting and pasting test cases can remove them from the ui by adding them to folders in other projects- [IN:4051]
- Copying folder into subfolder creates semi-infinite loop.- [IN:4052]
- Custom Properties not displaying in PDF format reports (other formats OK)- [IN:4053]
- Searching by ID on associations tab of incident details page can cause errors- [IN:4062]
- SpiraTest: followers are not displayed on incident detail page- [IN:4069]
