## Enhancement & Resolved Issues

The following issues and enhancements have been addressed in this release:

## SpiraTest® 6.0 Release Notes

---

- System Administration - Add/Edit Users: German translation for "Locked Out" misleading- [IN:2230]
  - security issue when having 2 projects open in browser tabs- [IN:2651]
  - When a test case is created from a requirement, it lacks the default test step.- [IN:3499]
  - System Error when trying to display the detail page for some Project History Changes- [IN:4691]
  - The 'Loading / Activity' notification is nice, but off-screen.- [IN:4876]
  - A general system admin should be added as an owner when they create a new template/program/product- [IN:4911]
  - Administration > Projects > Project Associations: limit the list of artifact types for selection- [IN:4553]
  - Can click on artifact id field on details page to copy to clipboard- [IN:4793]
  - Can't easily blank out a previously populated Actual Result in normal test execution- [IN:4802]
-
